In deze catalogus staan producten van drie zusterbedrijven, te weten:

- Van Leeuwen Leder BV
- Wildeman Benelux BV
- Wildeman Waalwijk BV

Op alle aanbiedingen, leveringen en verkopen zijn onze 'Algemene Voorwaarden' van toepassing, welke zijn gedeponeerd bij de Kamer van Koophandel Tilburg op 25 juli 2016 voor ieder zusterbedrijf.

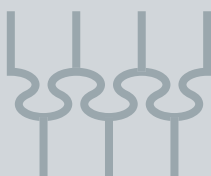

Inhoudelijk zijn de Algemene Voorwaarden voor de drie zusterbedrijven identiek. U vindt de Algemene Voorwaarden per BV op onze website www.allesvoorklanten.nl. Op verzoek sturen wij u een papieren exemplaar van de Algemene Voorwaarden toe.

Afbeeldingen, beelden en teksten in deze catalogus mogen niet worden gekopieerd, bewerkt of anderszinds gebruikt zonder schriftelijke toestemming van Wildeman Benelux BV.

De getoonde afbeeldingen zijn een digitale weergave van de stofkleur. De afgebeelde kleuren kunnen in de catalogus en op uw scherm afwijken van de werkelijkheid. Er kunnen geen rechten ontleend worden aan de getoonde afbeeldingen met betrekking tot kleur en patroon.

Het maken van een catalogus is mensenwerk. We hebben hier ons uiterste best voor gedaan, kleine foutjes of achterhaalde informatie kunnen we helaas niet en vormen derhalve geen grond voor aansprakelijkheid, claims en/of klachten. Aan de inhoud van deze catalogus kunt u geen rechten ontleen.

Naast onze eigen producten vind je in deze catalogus
ook producten van de volgende partners:

Beste lezer.

Welkom bij onze Yachting Catalogus. Net als in de wereld van Yachting luxe, innovatie en vakmanschap samenkomen, komt in deze catalogus ons assortiment samen. Laat je verrassen door bootdoeken en Batyline van **Wildeman Benelux**, leder van **Van Leeuwen Leder** en kunstleder, stoffen en accessoires van **Wildeman Waalwijk**.

Of je nu jachtontwerper bent of jachtbouwer, laat je inspireren en geniet van ons uitgebreide aanbod. Ook een stoffeerder en/of zeilmaker die van yachting zijn specialiteit heeft gemaakt kan zijn hart ophalen aan onze zorgvuldig samengestelde collectie. Stuk voor stuk hoogwaardige producten die voldoen aan de hoogste eisen op het gebied van duurzaamheid, esthetiek en functionaliteit.

Onze materialen zijn speciaal ontworpen om bestand te zijn tegen de meest uitdagende maritieme omstandigheden, zoals blootstelling aan zout water, UV-straling en intensief gebruik, zonder concessies te doen aan stijl en comfort. Onze hoogwaardige stoffen en leersoorten bieden bescherming en duurzaamheid.

Ook dragen ze bij aan de uitstraling en het karakter van de boot. Of je nu kiest voor een tijdloze en klassieke look of een modern en strak design, onze producten helpen je bij het creëren van een omgeving die perfect aansluit op jouw wensen.

Daarnaast werken wij met toonaangevende merken en leveranciers die bekend staan om hun uitstekende kwaliteit en technologische innovaties. Dit stelt ons in staat om je de beste oplossingen te bieden, ongeacht de grootte of stijl van jouw jacht.

Wij nodigen je uit om deze catalogus te verkennen en inspiratie op te doen voor je volgende project. Ons team van experts staat altijd voor je klaar om je te adviseren en te begeleiden in het maken van de juiste keuzes.

Met nautische groet,

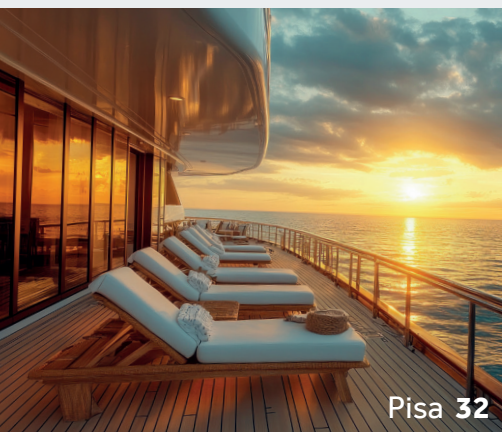

Wildeman

BATYLINE LOUNGE

Serge Ferrari
group

Batyline Lounge is een duurzame en weersbestendige buitenstof voor kussenhoezen. Het is gemaakt van sterke polyestervezels met een PVC-coating, wat het rek- en scheurvast maakt. Dankzij de open structuur is de stof sneldrogend en zeer onderhoudsvriendelijk. Batyline Lounge is bestand tegen UV-straling en schimmels.

Winnaar Pittman Innovation Awards 2018

SUREFAS CAF-COMPO

Snap Studs

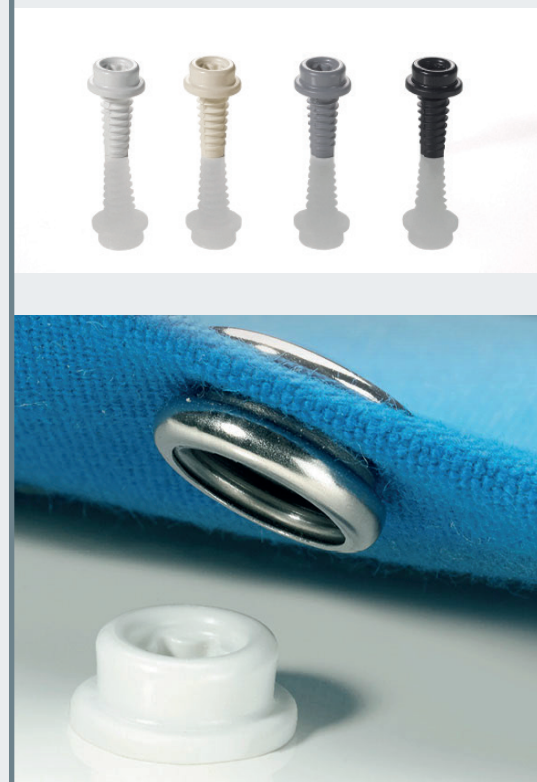

Bron: sailmagazine.com, 16 januari 2018

Normaal gesproken worden onze Pittman Award-winnaars vrijwel uitsluitend gekozen vanwege hun techniek en ontwerp, vooral in de categorie systemen. Bij deze composietnoppen speelde echter ook de esthetiek een rol.

Niet alleen dat, maar dit aspect van hun ontwerp speelde een belangrijke rol in de positieve reacties die de snaps ontvingen tijdens de recente METS-beurs in november in Amsterdam.

basisdeel van een stoffen drukknop- of ringveerdruksluitingssysteem.

Ze zijn gegoten uit een zeer sterk UV-gestabiliseerd composiet met zelftappende schroefdraad en kunnen met een Torx 30-schroevendraaierbit op een manier worden geïnstalleerd in glasvezel, plastic of hout op een manier die vergelijkbaar is met de gewone metalen noppen.

"Gegoten uit een zeer sterk UV-gestabiliseerd composiet"

Op foto's voor brochures en andere marketingdoeleinden willen botenbouwers meestal niet dat de kleine roestvrijstalen cirkels die doorgaans worden gebruikt voor het bevestigen van stoffen panelen, de aandacht afleiden van de lijnen van de boot. Als gevolg hiervan worden drukknoppen vaak pas geïnstalleerd nadat de foto's zijn gemaakt.

Met deze Surefas Caf-Compo drukknoppen, die verkrijgbaar zijn in wit, crème, lichtgrijs en zwart (of elke aangepaste RAL-kleur die een productiekoper voor de toepassing ervan wenst), is dat echter geen probleem meer. Omdat de drukknoppen niet van metaal zijn, vormen corrosie en de daaruit voortvloeiende vlekken praktisch geen probleem meer.

In gebruik dienen de noppen als

Een variant met M6 metrische machineschroefdraden is ook geschikt voor tapgaten in aluminium, staal en andere harde ondergronden.

Waarom SUREFAS CAF-COMPO Snap Studs?

1. **De 2 bovenste wikkelingen zijn volledig intact voor optimale grip;**
2. **Waterdicht, zelfs zonder kit;**
3. **UV-gestabiliseerd en geen slijtage;**
4. **100% corrosievrij op aluminium.**

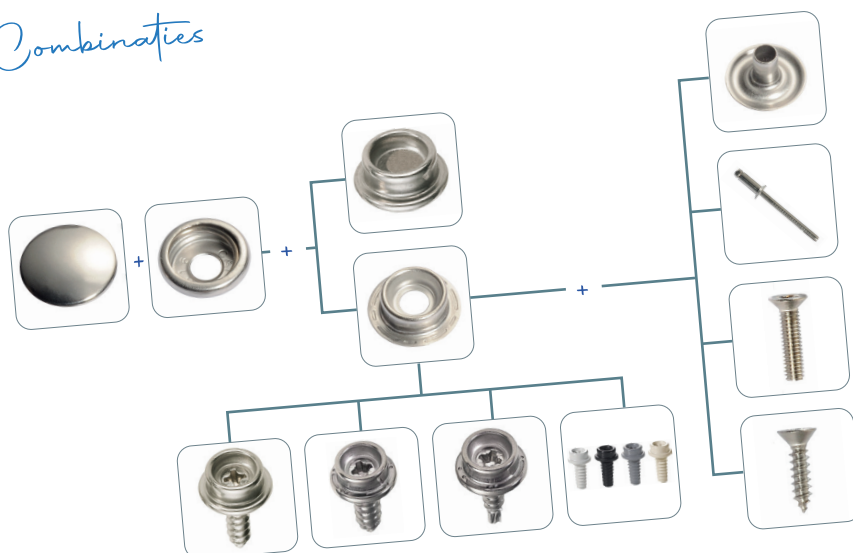

CAF 316

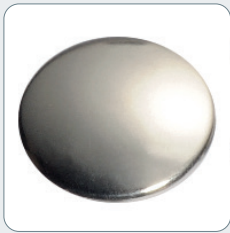

SURE FAS®

Een drukknop waar je echt op kunt vertrouwen: geschikt voor maritieme toepassingen én zeewater bestendig. Geheel gemaakt van roestvrij staal - ook de interne veer - waardoor jarenlange betrouwbare prestaties worden gegarandeerd, ongeacht de omstandigheden.

"Gemakkelijk in gebruik
en superieure veiligheid!"

LOXX® is al 60 jaar een onmisbare oplossing voor het snel en veilig bevestigen van zeildoek, buiskappen, biminitops en luifels op boten. Voor zonwering of regenscherm, windscherm en stormzeil, voor dekzeilen of beschermingszeilen: deze ingenieuze sluiting is de makkelijkste, snelste en veiligste bevestigings oplossing!

Het LOXX® veiligheidsslot bestaat altijd uit twee delen. Het sluit en vergrendelt automatisch. De duurzame roestvrijstalen veer van het bovenste deel past precies om de kogelkop van het onderste deel en blokkeert. Het slimme mechanisme gaat pas open als de dop van het bovenste deel wordt opgetild en de kogelkop wordt losgelaten. LOXX® als veiligheidsslot is betrouwbaar in gebruik, duurzaam in productie en verrast met een innovatief design.

Wat is LOXX® en hoe werkt het?

Bron: esails.nl

1. LOXX KOP

De kop wordt in het zeil, kap of zonnenscherm geplaatst en kan worden bevestigd op een zelftapper, doekdeel, plaat, raamclip enz.

Gebruiksaanwijzing:

De Loxx drukknop koppen zijn zeer eenvoudig te bevestigen, omdat ze kunnen worden geïnstalleerd zonder te naaien of gereedschap te gebruiken.

Voor elastische en zachte stoffen, snijd een gat van 9 mm uit of pons uit met een ponsgereedschap. Houd er rekening mee dat voor stevige stoffen of leer een groter gat geslagen moet worden van 10 mm. Steek het schroefdraad door het gat, schroef de ring erop en draai deze vast met de kleine LOXX sleutel.

2. LOXX DOEKDEEL

Het doekdeel is een tegendeel voor de 'standaard' Loxx Kop. Erg handig voor bijvoorbeeld het monteren van een klein zonnepaneel op de kap of het verbinden van delen zeil of doek.

Gebruiksaanwijzing:

Het doekdeel is zeer eenvoudig te bevestigen, omdat het wordt geïnstalleerd zonder naaien of gereedschap:

- 1) Voor elastische en zachte stoffen, snijd een gat van 9 mm uit of pons uit met een ponsgereedschap. Houd er rekening mee dat voor stevige stoffen of leer een groter gat geslagen moet worden van 10 mm.
- 2) Steek het schroefdraad door het gat, schroef de ring erop en draai deze vast met de kleine LOXX sleutel.

3. ZELFTAPPERS

Het bijzondere aan de LOXX® schroeven is dat ze uit drie delen bestaan:

De schroefdraad is altijd gemaakt van zoutwaterbestendig roestvrij staal; de kogelkop en zeskant worden gemaakt van roestvrij staal of koper-vernikkeld.

De functie van de zelftappers of zelftappende schroeven is af te leiden uit de naam: de schroef is namelijk zo ontworpen dat deze door een draaibeweging te maken zelf een schroefgat tapt in het oppervlakte. Voorboren raden we aan te doen met de dikte van de kern van de schroef.

YKK

SPIRAAL RITS

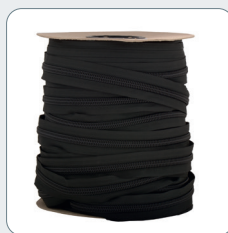

De spiraalrits is een functionele rits voor bijvoorbeeld sport en outdoor. Gemaakt van elementen in polyester die op tape zijn genaaid of geweven. Leverbaar in vele kleuren en maten met eindeloze opties voor verwerking. Zowel waterafstotend als winddicht.

Andere kleuren en/of lengtes op aanvraag leverbaar

Wist je dat...

- YKK in 1934 werd opgericht in Japan en het bedrijf zich in 1964 vestigde in Nederland als eerste Japanse bedrijf?
- Mode labels als Louis Vuitton en Tommy Hilfiger bij YKK hun ritsen bestellen?

PVC & FOLIE

Bij het schoonmaken van PVC en folie dient men voorzichtig te werk te gaan: Altijd met een zachte doek en zonder hoge druk uit te oefenen op de ondergrond. Het schoonmaakmiddel dient PH neutraal te zijn en niet bijtend.

Ferrari Clean Spray

Reinigt PVC doeken

VS.

VuPlex

Reinigt en polijst transparant kunststof

Maakt folie weer helder

VS.

IMAR Polish

De formule op basis van polymeren vormt een beschermende barrière tegen de schadelijke effecten van milieuvervuiling

Veilig en effectief voor doorzichtige vinyl

VS.

IMAR Cleaner

Unieke formule om Strataglass te reinigen, te laten glanzen en beschermen

UV-remmers verminderen door ouderdom veroorzaakte broosheid en verlengen de flexibiliteit

"Het resultaat is verbluffend!"

Conclusie

Vuplex werkt. Simpel en doeltreffend. Er zit uiteraard wel een grens aan de verwerking en beschadigingen die het product aankan. Maar je zult echt verbaasd zijn als je ziet hoeveel het doorzichtig kunststof opknapt. En dat zijn geen loze verkooppraatjes!

JD	Anti Rain Spray	FL-766100	NA	>1

Cleaner | Wiertz

Wiertz Leder Cleaner is een milde lederreiniger op waterbasis. Geschikt voor vol aniline en gedekverfde leersoorten. Niet geschikt voor suède en nubuck.

VS.

Conditioner | Wiertz

Wiertz Leder Conditioner is een moderne verzorgings- en onderhoudscreme op waterbasis, met UV filter om het leer langer zijn originele kleur te laten behouden. Optimale verzorging voor volaniline en gedekverfde leer-soorten. Niet geschikt voor suède en nubuck leder.

VS.

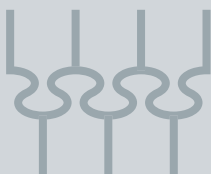

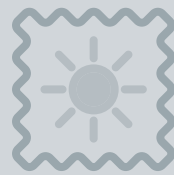

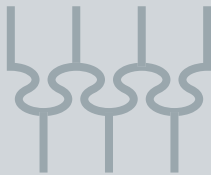

Anti Rain Spray

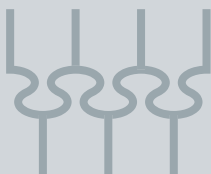

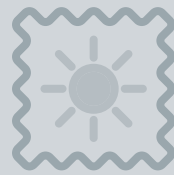

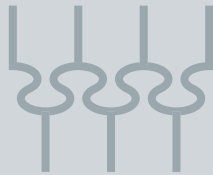

Verzorgt en beschermt leder tegen vocht en vuil.

Ook zeer geschikt voor nubuck en suède.
