CHIOCCARELLO®
FABRICS SINCE 1962

MADERNO FABRIC

Maderno is a 100% polyester fabric made from fully recycled and recyclable yarn. The fabric is water-repellent but surprisingly soft. Also, Maderno can be used on both sides and is easy to clean. The chenille effect (the accumulation of threads which gives the fabric its soft fluffiness) is flame-retardant and makes the fabric suitable for heavier applications.
