

# SOLTIS PROOF

## 502 V3

**Serge Ferrari**  
group

Soltis Proof 502 V3 is a 590-gram fabric with Précontraint technology. This product was originally developed for shade structures, but its trendy colours and satin-like finish make it much more versatile. It is lightweight, stays taut, has a long lifespan and allows natural light to pass through.

100% recycled PET thread under the PVC coating

28.6% less CO2 emissions during production

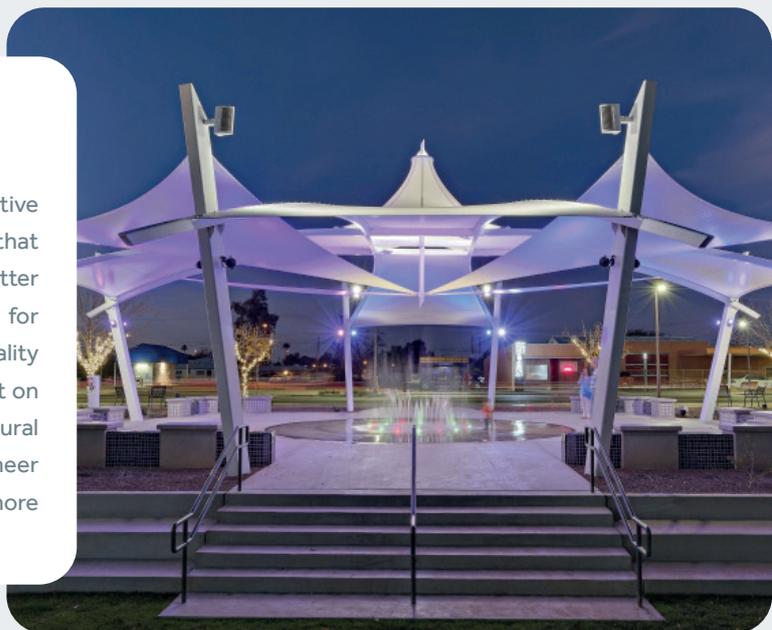

Phthalate and PFAS free

New colour palette

Soltis Loop® is a new generation of innovative products made from recycled materials that embody our sustainable approach: 'Do better with less'. This phrase reflects our desire for lighter, more sustainable and high-quality membranes, without any additional impact on the environment. Focused on saving natural resources, the Soltis Loop® series is a pioneer of tomorrow, in which we can do even more with less.
