

# METAL ACCESSORIES

These metal accessories are all suitable for fastenings and fixings in their own way. Think, for example, of adjusting straps, tightening them or even fastening them together.

van Leeuwen

## D-Ring

Used as an end piece and, together with, for example, a carabiner or snap hook, forms a secure fastening.

## D-Ring

One of the simplest and most useful connection designs. Made of iron and galvanised to prevent rusting.

## S-haak

Versatile and strong hook that can be used both indoors and outdoors.
