

| TECHNICAL PROPERTIES       |                   | BACHE 900 PANAMA        |
|----------------------------|-------------------|-------------------------|
| <b>PHYSICAL</b>            |                   |                         |
| Width                      |                   | 300 cm                  |
| Length                     |                   | 58 m                    |
| Weight                     | DIN 53352         | ± 900 gr/m <sup>2</sup> |
| Composition                | DIN EN ISO 2286-2 | 100% PVC                |
| Coating                    | 2 sides lacquered | PVC + Acrylic           |
| Base cloth                 |                   | 1100 d-tex              |
| Weaving                    |                   | 12x12                   |
| <b>STRENGTH</b>            |                   |                         |
| Tear strength              | DIN 53363         |                         |
|                            | Warp              | ≥ 500 N                 |
|                            | Weft              | ≥ 500 N                 |
| Tensile strength           | DIN 53354         |                         |
|                            | Warp              | ≥ 4000 N/5cm            |
|                            | Weft              | ≥ 3500 N/5cm            |
| Adhesion                   | DIN 53357         | ≥ 100 N/5cm             |
| Colour fastness to light   | DIN EN ISO 877    | 7-8                     |
| Resistance to temperatures | DIN EN 1876-2     | -30 °C / +70 °C         |
